THE QA PLATFORM FOR  
AEROSPACE SMART  
FACTORIES

**How to**

Navigate a User Directory

Rejoindre la page d'accueil à partir du ruban se trouvant sur la gauche.

Go to the home page from the ribbon on the left.

Vaya a la página de inicio desde la cinta de la izquierda.

The screenshot shows the Wilbur web application interface. On the left, a dark blue sidebar contains a navigation ribbon with buttons for 'Home', 'Work', 'Performance', and 'Help & About'. The 'Home' button is highlighted with an orange box. The main content area displays a 'Welcome, Test' message and a 'MY QUERIES' section with a 'No Results' message. Below this is an 'EXPLORE BY' section with a 'Requests' button highlighted by an orange box. The 'REQUEST OVERVIEW' section includes filters for Site, Area, Request Type, and Group. It features several data cards: 'CURRENT WIP' (Available: 530, Assigned: 401, Blocked: 95), 'PERFORMANCE BREAKDOWN' (Created: 2407, Closed: 2382, Unplanned: 63%), and a table of 'Average time in hours' by priority (Priority 1: 4.3, Priority 2: 7.9, Priority 3: 8.9, Priority 4: 8.5). A 'Most requested areas' section shows a horizontal bar chart with the top three areas: '[INSTALL 7k\_8k(200CV)] Ligne Dynamique Global 7K et' (150), '[BUILDUP (CE)] Ebénisterie C7K: Buildup' (148), and '[1020FAL-4035] 7500 FAL' (141). A notification at the bottom states 'The query was deleted' with 'Undo' and 'X' options.

À titre de rappel les répertoires:

- Contiennent toutes les entités existantes depuis la création du répertoire
- Offrent un visuel configurable où chaque ligne représente une entité
- Permettent de consulter une entité simplement en la sélectionnant
- Offrent des capacités de recherches et de sauvegarde avancée
- Se rafraichissent toutes les 3 minutes

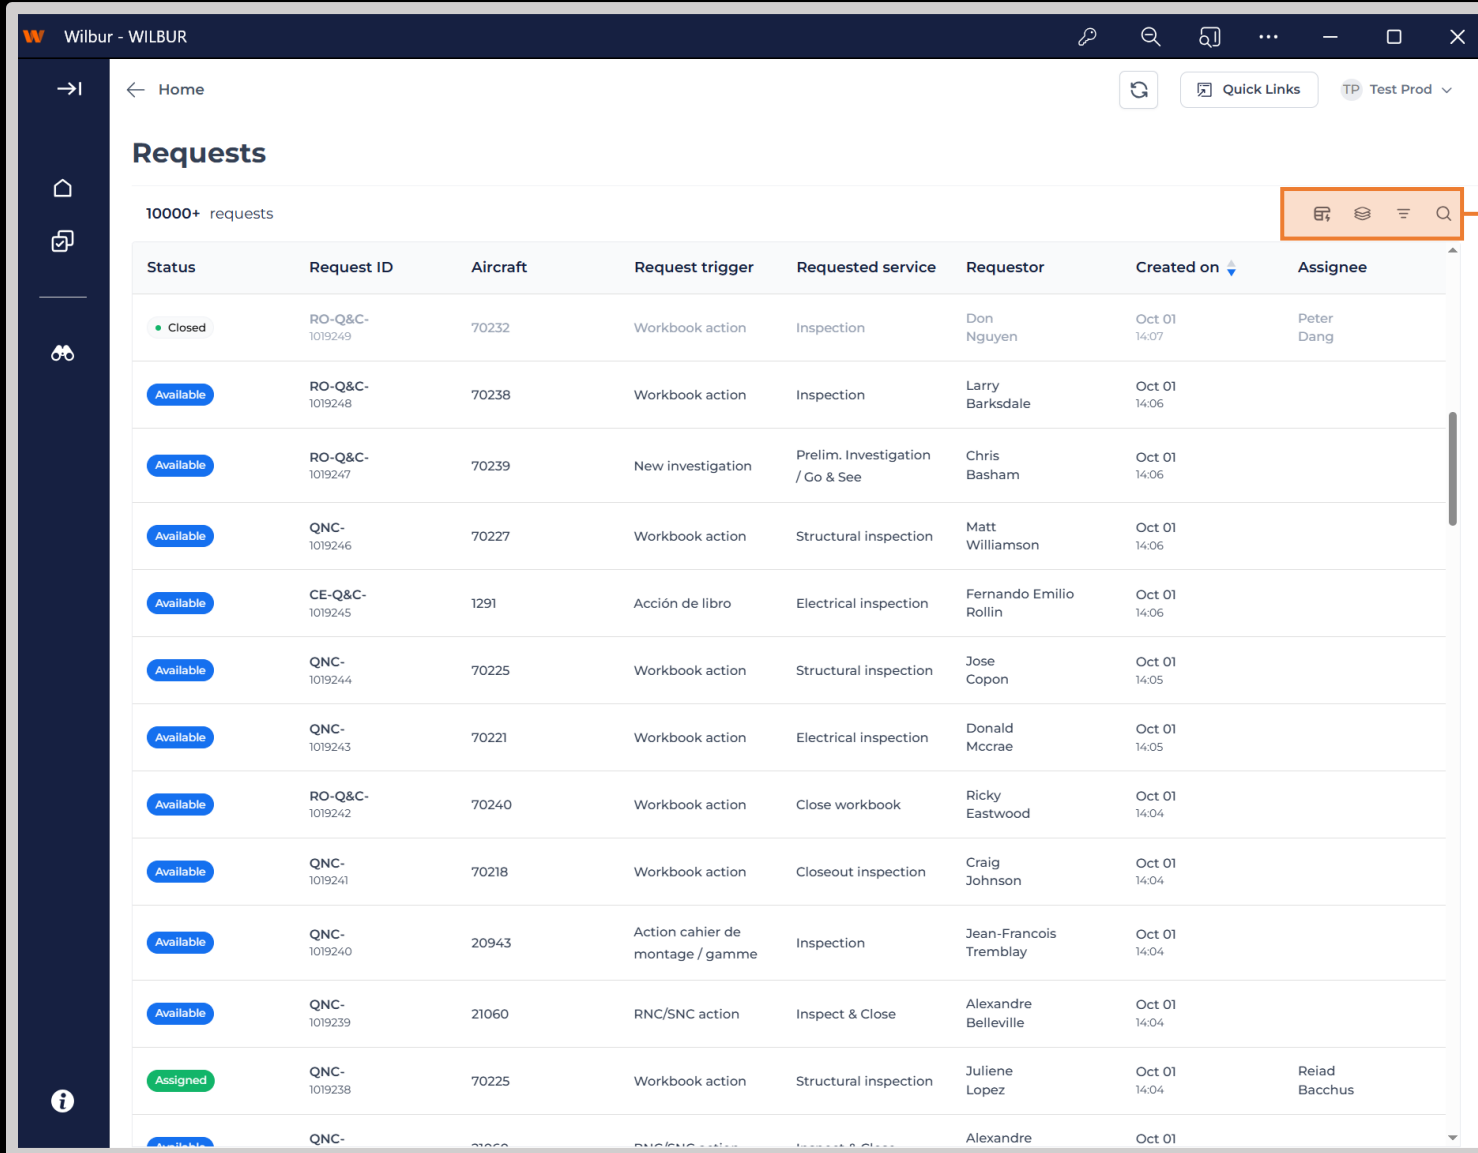

As a reminder, directories:

- Contain all entities since the directory's creation
- Offer a configurable visual where each line represents an entity
- Allow you to consult an entity simply by selecting it
- Offer advanced search and save capabilities
- Refresh every 3 minutes

Como recordatorio, los directorios:

- Contienen todas las entidades desde que se creó el directorio.
- Ofrecen un visual configurable donde cada línea representa una entidad
- Permiten consultar una entidad simplemente seleccionándola
- Ofrecer capacidades avanzadas de búsqueda y guardado
- Se actualizan cada 3 minutos

# WILBUR | Directory options

The screenshot shows the 'Requests' page in the Wilbur application. The table lists various requests with columns for Status, Request ID, Aircraft, Request trigger, Requested service, Requestor, Created on, and Assignee. A search bar and filter icons are visible at the top right of the table area.

Les options de recherche et consultation se déclinent en 4 fonctionnalités qui sont: par mot clé, avec filtres, via regroupement et par gestion des colonnes.

Search and consultation options are accessible via 4 functionalities: by keyword, by filter, by grouping and by column management.

Las opciones de búsqueda y consulta están disponibles a través de 4 funciones: por palabra clave, por filtro, por agrupación y por gestión de columnas.

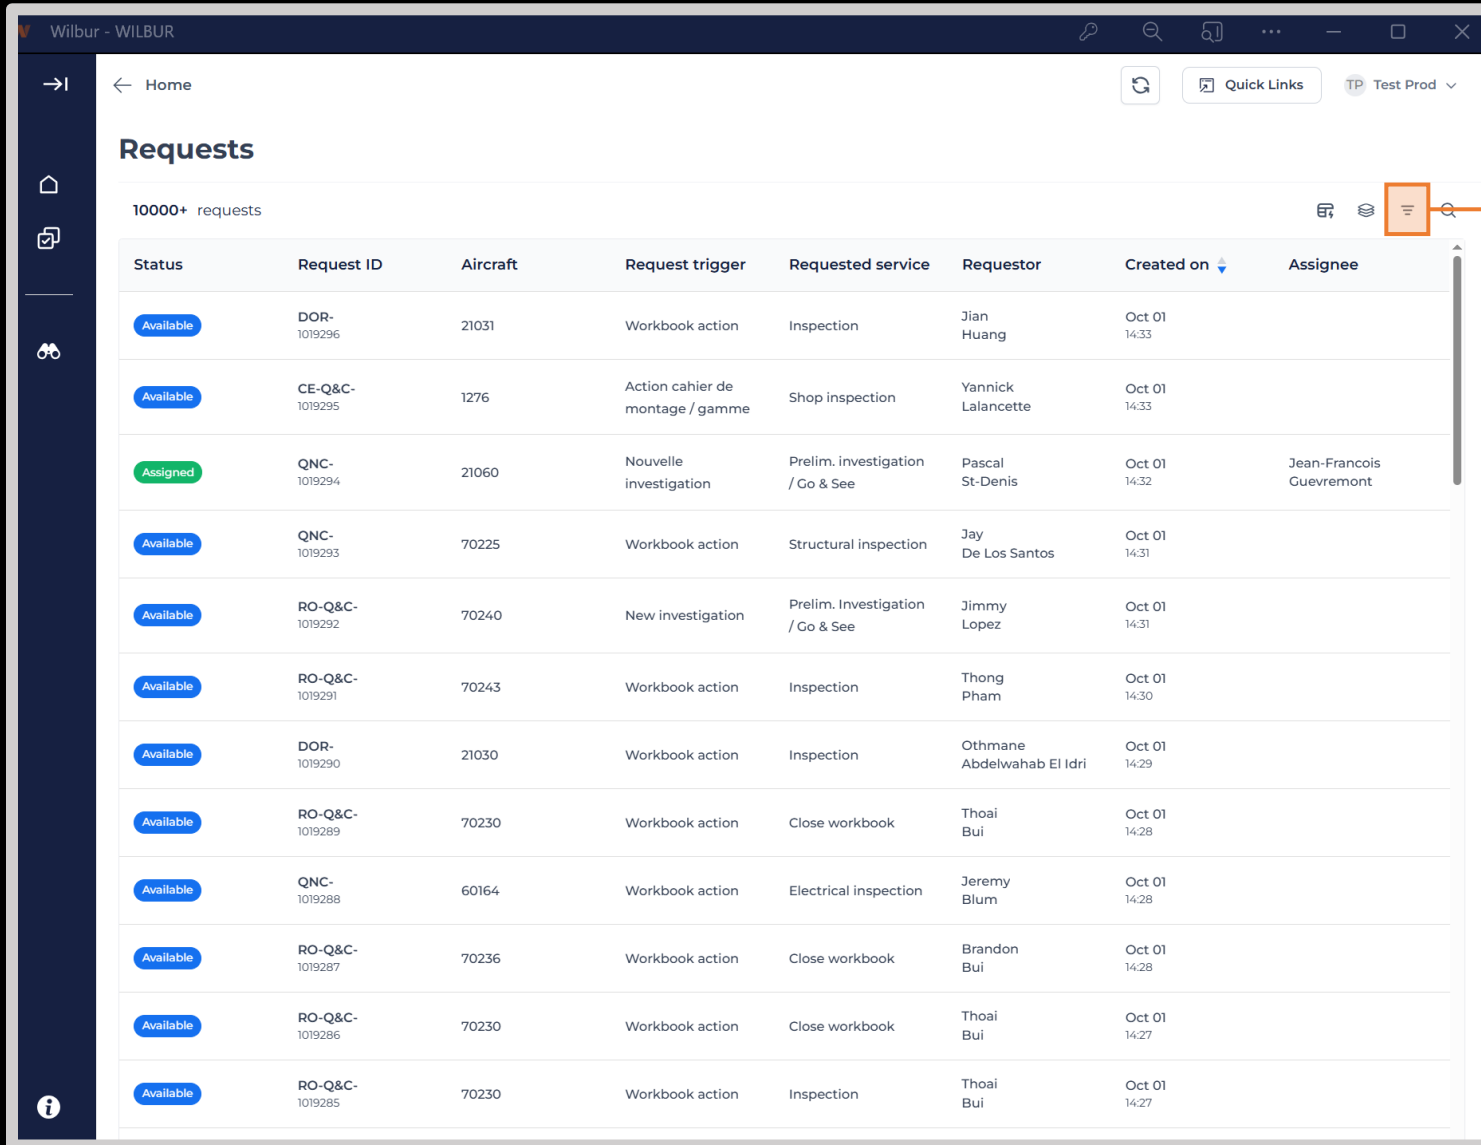

# WILBUR | Simple search

The screenshot displays the Wilbur - WILBUR interface. A modal window titled "Inspection" is open, showing details for request DOR-0717817. The modal is divided into sections: DETAILS, DISPATCH, and ACTIVITIES. The DETAILS section includes fields for Initial station, Aircraft, Request trigger, Requested service, NCR/SNC #, Item #, and Order #. The DISPATCH section includes Station, Group, Severity, and Assignee. The ACTIVITIES section shows a timeline of events for Jun 7, 2024. A search bar at the top right of the modal contains the text "viens me voir". A magnifying glass icon is positioned over the search bar, and a line connects it to the text in the adjacent callout box.

La loupe permet d'effectuer des recherches par mots clés parmi tous les champs des entités du répertoire. Si des filtres sont appliqués la recherche par mots clés sera ciblée uniquement aux entités correspondantes.

The magnifying glass allows you to search by keyword across all entity fields in the directory. If filters are applied, the search will be targeted to the corresponding entities.

La lupa permite buscar por palabra clave en todos los campos de entidad del directorio. Si se aplican filtros, la búsqueda se dirigirá a las entidades correspondientes.

Les filtres permettent d'effectuer des recherches plus complexes et d'enregistrer celles-ci. Lorsque sauvegardé ces recherches deviennent accessibles via la page d'accueil sous forme de Widgets.

Filters allow you to carry out more complex searches and save them. When saved, these searches become available as widgets on the home page.

Se pueden utilizar filtros para realizar búsquedas más complejas y guardarlas.

Una vez guardadas, estas búsquedas se vuelven accesibles a través de la página de inicio en forma de Widgets.

The screenshot displays the 'Filter Requests' dialog box in the Wilbur application. The dialog is overlaid on a table of requests. The 'DATES' section of the filter is highlighted with an orange box, showing the 'Date created' filter set to 'Today'. The 'REQUEST STATUS' section shows 'Assigned' as the selected status. The 'CONTRIBUTORS' section has 'Created by' and 'Assigned to' filters. The background table shows a list of requests with columns for Status, Request ID, Aircraft, Request trigger, Requested service, and Requester. A calendar widget is also visible, showing the current date as October 1st, 2024.

Sélectionner les filtres requis parmi les options associées aux entités de ce répertoire.

Il est possible d'utiliser un concept de temporalité dans les sélections de date (ex: aujourd'hui, hier, cette semaine)

Select the filters you wish from all the options associated with the entities in this directory.

It is possible to use a temporal concept in date selections (e.g. today, yesterday, this week).

Seleccione los filtros que desea de entre todas las opciones asociadas a las entidades de este directorio.

Es posible utilizar un concepto temporal en las selecciones de fecha (por ejemplo, hoy, ayer, esta semana).

# WILBUR | *Complex search using filters, Query & Widget*

The screenshot shows the Wilbur WILBUR interface. On the left, a sidebar contains navigation icons. The main area displays a 'Requests' table with two rows of data. A 'Filter Requests' dialog box is open on the right, allowing users to refine their search. The dialog box includes sections for REQUEST DETAILS, DISPATCH, REQUEST STATUS, PRIORITY, DATES, and CONTRIBUTORS. The 'Assigned' status is selected in the REQUEST STATUS section. The 'Save query' button is highlighted with an orange box.

Status	Request ID	Aircraft	Request trigger	Requested service	Requester
Assigned	QNC-1016065	70242	Acción de libro	Inspection	Jose Huerta
Assigned	QNC-1015890	70242	Acción de libro	Inspection	Jose Huerta

Après la visualisation des résultats de la recherche il est possible de sauvegarder celle-ci.

Il suffit de retourner dans les filtres et sélectionner l'option de sauvegarde.

Once you've viewed your search results, you can save them.

Simply go back to the filters and select the save option.

Una vez visualizados los resultados de su búsqueda, puede guardarla.

Solo tienes que volver a los filtros y seleccionar la opción de guardar.

The screenshot shows the Wilbur dashboard interface. At the top, there's a navigation bar with the Wilbur logo and the text 'Wilbur - WILBUR'. Below this is a sidebar with navigation icons. The main content area is titled 'Welcome, Test' and features a 'MY QUERIES' section. A search widget is highlighted with an orange border, showing a search result with the number '2' and the text 'Assigned on 70242 & created today'. Below this, there's an 'EXPLORE BY' section with a 'Requests' button. Further down is a 'REQUEST OVERVIEW' section with filters for Site, Area, Request Type, and Group. The bottom part of the dashboard includes a 'CURRENT WIP' section with three cards: Available (493), Assigned (378), and Blocked (102). To the right is a 'PERFORMANCE BREAKDOWN' section with a table of average times in hours for different priorities and a 'Most requested areas' section with a horizontal bar chart.

Priority	Average time in hours
Priority 1	4.3
Priority 2	7.6
Priority 3	8.2
Priority 4	8.3

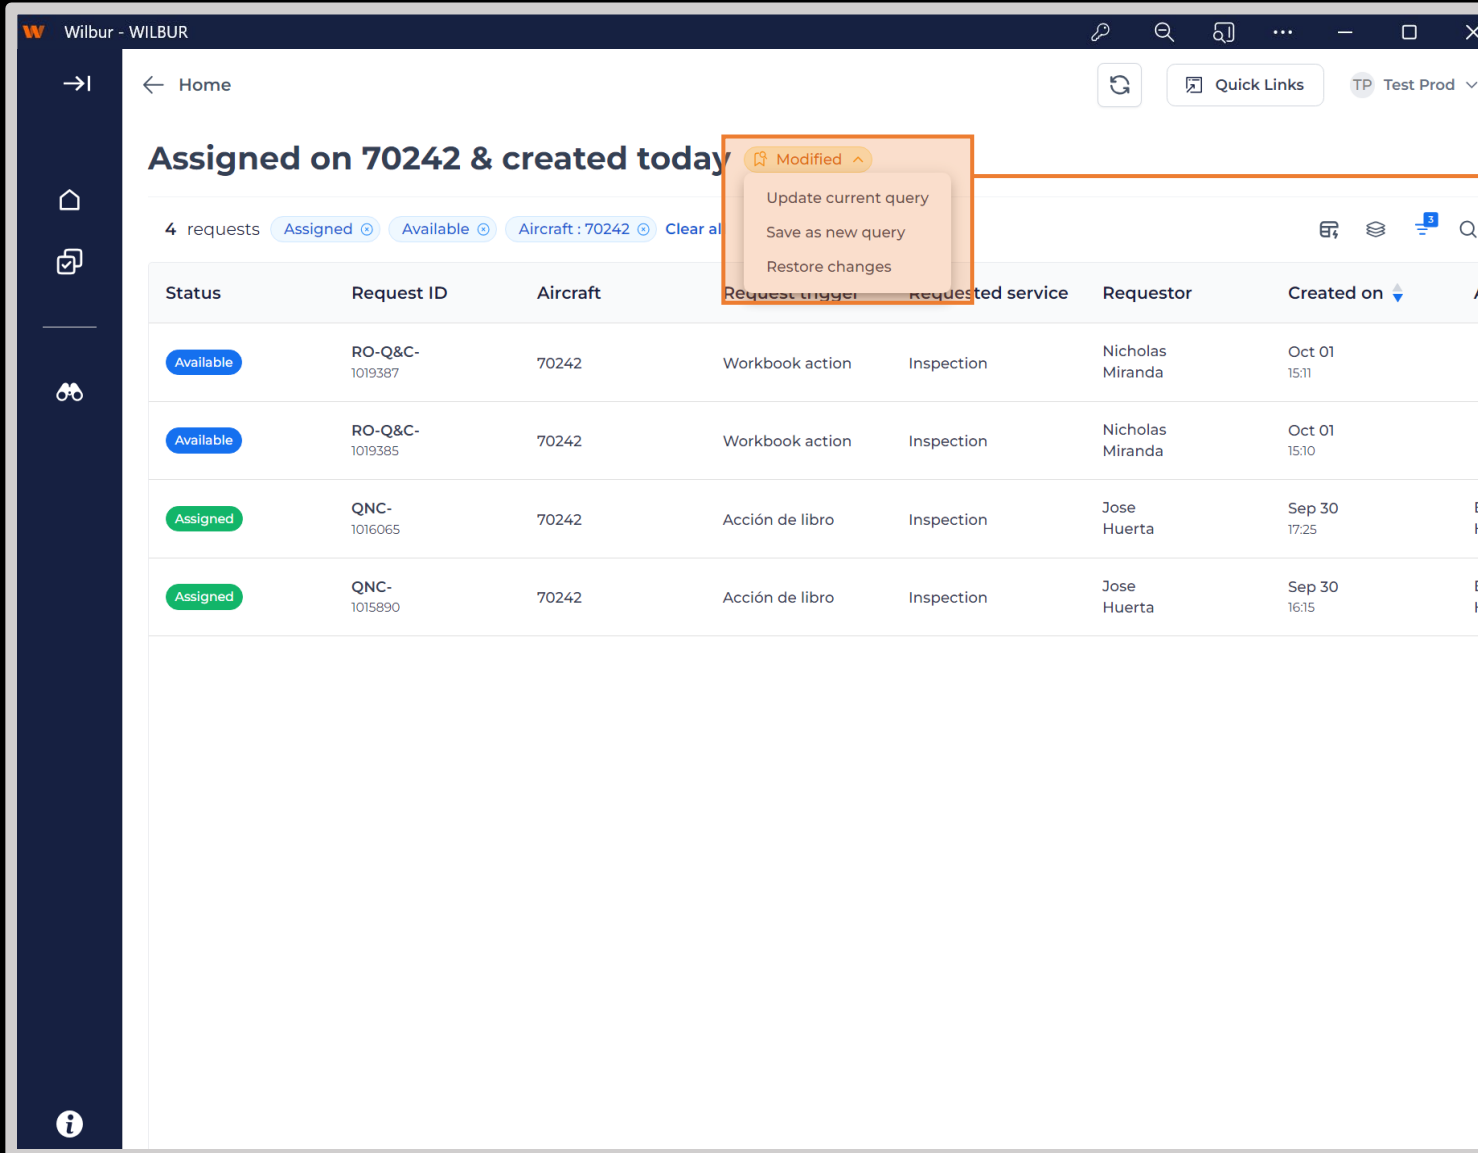

Area	Count
[BUILDUP (CE)] Ébénisterie C7K: Buildup	152
[INSTALL 7k_8k(200CV)] Ligne Dynamique Global 7K et 8K	151
[1020FAL-4035] 7500 FAL	150
[1020AERO-4034] 7500 Assy	142
[Install 5 & 6 (500CV)] Installation 5k & 6K	137

La recherche se retrouve sous forme de Widget sur la page d'accueil d'où il est possible de la renommer, la copier ou la supprimer à partir des ●●●

The search is displayed as a Widget on your home page, where it can be renamed, copied or deleted from the ●●●

La búsqueda se muestra como un Widget en tu página de inicio, donde puedes renombrarla, copiarla o eliminarla desde la opción ●●●

# WILBUR | Search with filters, Save query & Widget

The screenshot shows the Wilbur interface with a table of requests. The table has columns for Status, Request ID, Aircraft, Request trigger, Requested service, Requestor, and Created on. A dropdown menu is open over the 'Request trigger' column, showing options: 'Modified', 'Update current query', 'Save as new query', and 'Restore changes'. The table contains four rows of data.

Status	Request ID	Aircraft	Request trigger	Requested service	Requestor	Created on
Available	RO-Q&C-1019387	70242	Workbook action	Inspection	Nicholas Miranda	Oct 01 15:11
Available	RO-Q&C-1019385	70242	Workbook action	Inspection	Nicholas Miranda	Oct 01 15:10
Assigned	QNC-1016065	70242	Acción de libro	Inspection	Jose Huerta	Sep 30 17:25
Assigned	QNC-1015890	70242	Acción de libro	Inspection	Jose Huerta	Sep 30 16:15

Il est possible de changer les filtres d'un Widget et ensuite modifier celui-ci en utilisant la barre de statut se trouvant juste à droite du nom.

You can change a Widget's filters and then modify it using the status bar to the right of the query name.

Puede cambiar los filtros de un Widget y luego modificarlo utilizando la barra de estado situada justo a la derecha del nombre.

# WILBUR | Grouping

The screenshot displays the 'Requests' section of the Wilbur software. At the top, there are navigation icons and a search bar. Below the title 'Requests', there are filter buttons for '3 requests', '[3201] Red Oak', 'Blocked', 'Assigned', 'Available', and 'Clear all'. The main table lists requests with columns for Status, Request ID, Aircraft, Request trigger, and Requested service. To the right of the table is a 'Grouping index' panel, which is highlighted with an orange box. This panel shows a dropdown menu currently set to 'Aircraft'. Below the dropdown, it indicates '1 active selections' and 'clear'. A list of aircraft IDs is shown, each with a checkmark icon and a count: 70230 (3), 70236 (17), 70235 (14), 70234 (13), 70241 (13), 70240 (12), 70239 (9), 70233 (8), 70237 (6), 70242 (4), 70238 (3), 70232 (2), and 70231 (1).

Status	Request ID	Aircraft	Request trigger	Requested service
Available	RO-Q&C-1018687	70230	NCR/SNC action	Inspect & Close
Available	RO-Q&C-1017830	70230	NCR/SNC action	Inspection
Available	RO-Q&C-0886699	70230	Workbook action	Close workbook

Aircraft	Count
70230	3
70236	17
70235	14
70234	13
70241	13
70240	12
70239	9
70233	8
70237	6
70242	4
70238	3
70232	2
70231	1

La fonctionnalité de regroupement permet de sélectionner un ou plusieurs éléments de l'index sélectionné.

Elle peut être utilisée en conjonction avec les filtres.

The grouping feature allows you to select one or more items from the selected index. It can be used in conjunction with filters.

La función de agrupación permite seleccionar uno o varios elementos del índice seleccionado.

Puede utilizarse junto con filtros.
